

Workshop on Dynamical Systems and Operator Algebras

May 30 - June 1, 2016

University of Ottawa

This is the fifth international meeting arising from the research cooperation between the University of Ottawa and the Universidade Federal de Santa Catarina (Florianópolis, Brazil), later joined by l'Université d'Orléans (France) and Universität Münster (Germany). Among the major topics of interest will be the interaction between groupoids and C^* -algebras, as well as dynamics of large groups. Every mathematician is welcome to participate, particularly the graduate students from across Canada.

Mini-course

Ruy Exel (UFSC) will deliver a mini-course of two one-hour lectures on Tuesday and Wednesday mornings.

Speakers

C. Anantharaman-Delaroche (Orléans)
D. Bartošová (USP)
T. Bice (UFBA)
G. Boava (UFSC)
A. Buss (UFSC)
J. Cuntz (Münster)
G. Elliott (Toronto)
R. Exel (UFSC)
I. Farah (York)
D. Gonçalves (UFSC)

R. Holkar (UFSC)
M. Kennedy (Waterloo)
J. López-Abad (ICMAT)
M. Lupini (Caltech)
B. Mbombo (USP)
K. Medynets (USNA)
Ping Wong Ng (Louisiana)
J. Renault (Orléans)
M. Sobottka (UFSC)
M. Whittaker (Glasgow)

Organizers

Benoît Collins (Ottawa and Kyoto)
Thierry Giordano (Ottawa)

Vladimir Pestov (Ottawa)
Charles Starling (Ottawa)
